## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Juillet .....	162
Août .....	188

Cumulative statistics for January to August, 1973 show that 53.6 million international travellers entered Canada, including 28.4 million non-resident travellers, 22.9 million returning residents, and 2.3 million in the "other travellers" category which includes immigrants, military personnel and crews. The total flow of travellers was 3.3 percent higher than a year earlier.

Canadian residents returning from the United States numbered 21.9 million travellers, up 1.6 percent from last year while non-resident travellers from the United States numbered 27.6 million, an increase of 3.0 percent. Canadian residents returning from countries other than the United States numbered 987 thousand, a growth of 21.9 percent over last year, while close to 780 thousand travellers from countries other than the United States were recorded, up 23.4 percent.

Due to substitution effects, the rotating air strikes occurring in the latter part of July until early September did not noticeably dampen August plane travel as increases of 15.4 and 8.8 percent were recorded for non-residents and resident travellers respectively.

#### Non-resident travellers entering Canada:

Of the 27.6 million travellers from the United States entering Canada, 3.0 percent above the previous year, about 48 percent entered in July and August, a proportion similar to that of last year.

Visitors entering by automobile numbered 24.2 million travellers, an increase of 2.0 percent from the previous year. Entries by automobile accounted for about 88 percent of total travellers, a proportion unchanged from last year. Those visitors entering by automobile and remaining one or more nights numbered 8.5 million persons, a slight increase from a year earlier.

Monthly province of entry data for July and August show that the greatest proportion of United States visitors entered in Ontario, 65.8 percent; followed by Quebec, 9.8 percent; British Columbia, 9.3 percent; and New Brunswick, 9.0 percent.

In the non-automobile category, United States travellers entering by plane during the January to August period numbered 991,000 persons, up 23.1 percent from the previous year, and of which 39.0 percent entered in the latter two months. In the bus category 1.1 million travellers were recorded, up 6.6 percent from last year; almost half entered and left on the same day.

Province and port of entry data show that 175,000 plane travellers entered Ontario from the United States in July and August; approximately 83 percent of these entered at Toronto International Airport. In Quebec, plane visitors numbered 88,400, most of whom entered through the Montreal International Airport.

During the January to August period, non-resident travellers from countries other than the United States numbered 780,000 persons, a sharp increase of 23.5 percent from a year earlier; one half of these travellers entered in July and August. A breakdown by country of residence shows that travellers from the United Kingdom numbered 247,500; followed by Germany, 83,400; France, 53,700; Japan, 46,900; and the Netherlands, 44,900. Cumulatively,

Les statistiques cumulatives pour la période de janvier à août 1973 révèlent que 53,6 millions de voyageurs internationaux sont entrés au Canada, dont 28,4 millions de voyageurs non résidents, 22,9 millions de résidents revenant au pays et 2,3 millions d'"autres voyageurs", catégorie qui comprend les immigrants, les militaires et les membres d'équipage. L'affluence totale des voyageurs était de 3,3 % supérieure à celle de l'année précédente.

Les résidents canadiens revenant des États-Unis ont été au nombre de 21,9 millions, soit 1,6 % de plus que l'année dernière, alors que les voyageurs non résidents en provenance des États-Unis ont été au nombre de 27,6 millions, ce qui représente une augmentation de 3,0 %. Les résidents canadiens revenant de pays autres que les États-Unis ont été au nombre de 987,000 (accroissement de 21,9 % comparativement à l'année dernière); par contre, près de 780,000 voyageurs en provenance de pays autres que les États-Unis ont été enregistrés, soit 23,4 % de plus.

Grâce au transfert des passagers à une autre ligne, les grèves tournantes dans le transport aérien depuis la fin de juillet jusqu'au début de septembre n'ont pas eu trop de conséquences sur les voyages par avion au cours du mois d'août; en effet, des augmentations respectives de 15,4 % et 8,8 % ont été enregistrées pour les voyageurs non résidents et les voyageurs résidents.

#### Voyageurs non résidents entrant au Canada:

Des 27,6 millions de voyageurs en provenance des États-Unis qui sont entrés au Canada (soit 3,0 % de plus que l'année précédente), environ 48 % sont entrés en juillet et août: c'est là une proportion semblable à celle de l'année dernière.

Les visiteurs entrant en automobile ont été au nombre de 24,2 millions, soit 2,0 % de plus que l'année précédente. Les entrées en automobile représentent environ 88 % du total des voyageurs, proportion semblable à celle de l'année dernière. Les visiteurs qui sont entrés en automobile et ont séjourné une nuit ou plus ont été au nombre de 8,5 millions, soit une légère augmentation par rapport à l'année précédente.

Les données mensuelles sur la province d'entrée pour juillet et août indiquent que les visiteurs en provenance des États-Unis sont entrés surtout en Ontario (65,8 %), Québec (9,8 %), en Colombie-Britannique (9,3 %) et au Nouveau-Brunswick (9,0 %).

Dans la catégorie autre que l'automobile, les voyageurs américains entrant par avion au cours de la période de janvier à août ont été au nombre de 991,000, soit 23,1 % de plus que l'année précédente et de ce nombre, 39,0 % sont entrés au cours des deux derniers mois. Dans la catégorie "autocar", 1,1 million de voyageurs ont été enregistrés, soit 6,6 % de plus que l'année dernière; presque la moitié d'entre eux sont entrés et repartis le même jour.

Les données sur la province et le bureau d'entrée révèlent que 175,000 personnes voyageant par avion en provenance des États-Unis sont entrés en Ontario en juillet et août; environ 83 % d'entre eux sont entrés par l'aéroport international de Toronto. Au Québec, les visiteurs voyageant par avion ont été au nombre de 88,400, dont la majorité sont arrivés par l'aéroport international de Montréal.

Au cours de la période de janvier à août, les voyageurs non résidents en provenance de pays autres que les États-Unis ont été au nombre de 780,000 personnes, ce qui représente une forte augmentation de 23,5 % par rapport à l'année précédente; la moitié de ces voyageurs sont entrés en juillet et août. Une ventilation par pays de résidence indique que le nombre de voyageurs en provenance du Royaume-Uni s'est élevé à 247,500, en provenance de l'Allemagne, 83,400, de la France, 53,700, du Japon, 46,900 et des Pays-Bas, 44,900. Si on les addi-

the above noted countries accounted for about 61 percent of the total. Of these, travellers from Germany showed the greatest rate of growth, up 30.1 percent from a year earlier. Of the cumulative aggregate, about 46 percent entered Canada via the United States while almost all overseas travellers entering direct by plane entered at the Toronto and Montreal International Airports.

#### Resident travellers returning to Canada:

Cumulative figures to date show that 21.9 million residents re-entered from the United States, up 1.6 percent from the previous year. This year's absolute growth has been moderated by the 3.8 percent year-to-year decrease in returning residents during July and August. Travellers in these two months accounted for slightly more than a third of the eight months total.

Canadian residents re-entering from the United States by automobile during the first eight months this year numbered 19.4 million travellers, up 1.2 percent from last year, and representing 88.5 percent of aggregate re-entries. Resident travellers leaving and re-entering on the same day accounted for about two-thirds of the automobile total. Re-entries in July and August accounted for 37.0 percent of the cumulative total as compared to 39.1 percent a year earlier.

Province of re-entry statistics show that in the January to August period the greater part of all returning residents by automobile re-entered in Ontario, 38.3 percent; followed by New Brunswick, 19.6 percent; Quebec, 18.1 percent; and British Columbia, 17.7 percent.

In the non-automobile category, residents re-entering by plane from the United States in the first eight months this year numbered 937,000 travellers, an increase of 21.3 percent from the previous year. About one fifth of this total re-entered in the July to August period. One million residents re-entered by bus in the first eight months of this year; 63.4 percent left and re-entered on the same day.

Province of re-entry data for the January to August period show that 474,000 residents re-entered by plane in Ontario; about one half of all plane re-entries. Quebec recorded 243,000 plane re-entries, one quarter of the plane total. Residents re-entering in Ontario by bus numbered 677,000 travellers, accounting for about 68 percent of all bus re-entries.

Cumulative data for the first eight months of this year show that 987,000 residents returned from countries other than the United States, 21.9 percent above last year. Almost all these residents returned direct to Canada by air.

Province of re-entry data show that Ontario accounted for about one half of residents re-entering from countries other than the United States, followed by Quebec which accounted for slightly more than a third of all re-entries. Four fifths of the aggregate re-entered through the Toronto and Montreal International Airports.

tionne, les pays ci-dessus justifient d'environ 61 % du total. Parmi ces voyageurs, ceux qui venaient de l'Allemagne ont enregistré le plus fort taux d'accroissement, soit 30.1 % de plus qu'il y a un an. De l'ensemble cumulatif, environ 46 % sont entrés au Canada via les États-Unis, alors que presque tous les voyageurs d'outre-mer arrivant directement par avion sont entrés par les aéroports internationaux de Toronto et de Montréal.

#### Voyageurs résidents revenant au Canada:

Les chiffres cumulatifs révèlent que jusqu'à maintenant 21.9 millions de résidents sont revenus des États-Unis, soit 1.6 % de plus que l'année précédente. L'accroissement absolu de cette année a été ralenti par une baisse de 3.8 % chez les résidents de retour en juillet et août d'une année à l'autre. Le nombre de voyageurs au cours de ces deux mois représente un peu plus du tiers du total des huit mois.

Les résidents canadiens rentrant des États-Unis par automobile au cours des huit premiers mois de l'année ont été au nombre de 19.4 millions, soit 1.2 % de plus que l'année précédente et 88.5 % du total des rentrées. Les voyageurs résidents sortant et rentrant le même jour représentent environ les deux tiers du total des voyageurs par automobile. Les rentrées en juillet et août expliquent 37.0 % du total cumulatif comparativement à 39.1 % il y a un an.

Les statistiques sur la province de rentrée révèlent que, pendant la période de janvier à août les résidents revenant au pays en automobile sont rentrés surtout en Ontario, (38.3 %), puis au Nouveau-Brunswick, (19.6 %), au Québec (18.1 %) et en Colombie-Britannique (17.7 %).

Dans la catégorie autre que l'automobile, les résidents rentrant par avion en provenance des États-Unis au cours des huit premiers mois de l'année ont été au nombre de 937,000, soit 21.3 % de plus que l'année précédente. Environ un cinquième de ce total sont rentrés en juillet et août. Un million de résidents sont rentrés par autocar au cours des huit premiers mois de l'année; 63.4 % sont partis et revenus le même jour.

Les données sur la province de rentrée pour la période de janvier à août indiquent que 474,000 résidents sont rentrés par avion en Ontario, soit environ la moitié de toutes les rentrées par avion. Le Québec a enregistré 243,000 rentrées par avion, soit un quart du total des rentrées par avion. Le nombre de résidents rentrant en Ontario par autocar s'est élevé à 677,000, ce qui représente environ 68 % de toutes les rentrées en autocar.

Les données cumulatives pour les huit premiers mois de l'année révèlent que 987,000 résidents sont revenus de pays autres que les États-Unis, soit 21.9 % de plus que l'année dernière. Presque tous ces résidents sont revenus directement au Canada par avion.

Les données sur la province de rentrée indiquent que l'Ontario justifie d'environ la moitié des résidents rentrant de pays autres que les États-Unis, et que le Québec justifie d'un peu plus du tiers de toutes les rentrées. Les quatre cinquièmes du total sont rentrés par les aéroports internationaux de Toronto et de Montréal.

(1) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

(2) Comprend les véhicules entrés par les routes 9, 9A et 9B.

(3) Données estimatives tirées d'un échantillon.

(4) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

(1) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

(2) Comprend les véhicules entrés par les routes 9, 9A et 9B.

(3) Données estimatives tirées d'un échantillon.

(4) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

E62 Entry Tally - To record travellers by land and car ferry at ports of entry on the United States - Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25 per cent count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

E63 Private Craft and Passenger Arrivals - To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

E64 Referral Card - To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100 per cent count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-992-5507).

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

E62 Feuille de pointage des arrivés, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis - Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25 % effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargos, de traversiers et des navires de croisière.

E64 Referral Card, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux, Statistique Canada, Ottawa K1A 0Z8 (613-992-5507).

## Definition of Terms

International Traveller. - The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

Non-resident traveller. - An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

Resident Traveller. - An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

Other Travellers. - A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

Land. - Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

Air. - Commercial and charter services and private plane.

Marine. - Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

Other Methods. - Pedestrians, bicycle, motorcycle, etc.

Direct to Canada. - Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

Via the United States. - Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in the Southern United States who travels to the Caribbean would be counted as returning via the United States.

Countries Other than the United States. - In the case of non-residents, this designation includes all countries other than Continental United States, Alaska and Hawaii. In the case of Canadian resident travellers, this designation includes Hawaii and all countries other than Continental United States and Alaska.

## Définitions des termes

Voyageur international. - Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories "voyageurs non résidents" et "voyageurs résidents", les autres répondent à peu près à la définition internationale de "touriste".

Voyageur non résident. - Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire;
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

Voyageur résident. - Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

Autres voyageurs. - Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure;
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

Par terre. - En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

Par air. - Services commerciaux, vols nolisés et avions particuliers.

Par eau. - Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

Autres moyens. - À pied, à bicyclette, en motocyclette, etc.

Directement au Canada. - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

Via les États-Unis. - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance: il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois: comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant au pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

Pays autres que les États-Unis. - Pour les non-résidents, cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii. Pour les voyageurs résidents du Canada, cette catégorie comprend Hawaii et tous les pays autres que les États-Unis (partie continentale) et l'Alaska.

18. Résidents du Canada revenant de pays autres que les États-Unis, par bureau de rentrée . . . . .	162

Preliminary estimates for the first nine months of 1973 show that Canada earned \$1,176 million from international travel, up from \$1,034 million last year. This year's receipts comprise \$956 million earned from the United States and \$220 million earned from all other countries. The increase of 9.8 per cent in receipts from the United States results from increased expenditures of travellers in the non-automobile category primarily and in particular, plane travellers. Travellers from countries other than the United States increased their spending by 35.0 per cent from the previous year, which parallels their growth in numbers.

Preliminary estimates of Canadian resident spending abroad for the January to September period show payments totalling \$1,377 million, up 14.0 per cent from a year earlier. This total comprises payments of \$868 million to the United States and \$509 million to all other countries. The growth in payments results from a combination of increases in the levels of spending due to price inflation and currency realignments, as well as the increased numbers of residents visiting countries other than the United States.

Overall the travel account showed a deficit of \$201 million for the first three quarters of 1973, up from a \$174 million deficit last year. This results from the \$88 million surplus with the United States being outweighed by a \$289 million deficit with all other countries.

Cumulative statistics for January to September, 1973 show that 60.4 million international travellers entered Canada, up 3.1 per cent from the previous year. This aggregate comprises 32.1 million non-resident travellers, 25.7 million returning Canadian residents, and 2.6 million in the "other travellers" category which includes immigrants, military personnel, and crews.

#### Non-resident travellers entering Canada:

Cumulative statistics to date show that 31.2 million non-resident travellers from the United States entered Canada, up 2.8 per cent from a year earlier. This total includes 27.3 million automobile visitors, 17.6 million of whom entered and left on the same day.

In the automobile category, the positive growth experienced in the first two quarters over last year was somewhat dampened by a year to year decline in the third quarter. The decrease recorded in the third quarter may result from the increased uncertainty surrounding the availability of gasoline supplies. The pattern witnessed in the third quarter of increases in same day automobile travellers from the United States being more than offset by decreases in travellers remaining two or more nights is not inconsistent with this uncertainty.

In the non-automobile category, in the first nine months of 1973, plane visitors numbered 1.1 million and accounted for 3.6 per cent of all United States travellers. This total shows a 22.7 per cent growth in numbers from a year earlier. In the bus category 1.3 million travellers were recorded with almost an even split between same day and one or more nights travel.

Travellers from the United States entering Canada by bus over the nine month period grew at a 7.1

Les estimations provisoires des neuf premiers mois de 1973 indiquent que le Canada a reçu 1,176 millions de dollars des voyages internationaux, soit 1,034 millions de plus que l'an passé. Les recettes de cette année comprennent 956 millions de dollars en provenance des États-Unis et 220 millions en provenance de tous les autres pays. L'augmentation de 9.8 % des recettes américaines provient d'abord de dépenses accrues de la part des voyageurs de la catégorie autres moyens de transport et surtout des voyageurs en avion. Les voyageurs en provenance de pays autres que les États-Unis ont accru leurs dépenses de 35,0 % comparativement à l'année précédente, ce qui correspond à l'accroissement de leur nombre.

Les estimations provisoires des dépenses des résidents canadiens à l'étranger, de janvier à septembre, indiquent des paiements totalisant 1,377 millions de dollars, soit 14,0 % de plus qu'il y a un an. Ce total comprend des paiements de 868 millions de dollars aux États-Unis et de 509 millions de dollars dans tous les autres pays. L'accroissement des paiements provient des augmentations des niveaux de dépenses, à cause de l'inflation et de la réévaluation monétaire, de même que de l'accroissement du nombre de résidents voyageant dans des pays autres que les États-Unis.

Dans l'ensemble, le compte des voyages laisse apparaître un déficit de l'ordre de 201 millions de dollars pour le premier trimestre de 1973, alors qu'il avait été de 174 millions l'année dernière. Cette augmentation provient d'un excédent de 88 millions de dollars avec les États-Unis qui a été contrebalancé par un déficit de 289 millions avec tous les autres pays.

Les statistiques cumulatives de janvier à septembre 1973, révèlent que 60.4 millions de voyageurs internationaux sont entrés au Canada, soit 3.1 % de plus que l'année précédente. Cet agrégat comprend 32.1 millions de voyageurs non résidents, 25.7 millions de résidents canadiens revenant au pays et 2.6 millions dans la catégorie "autres voyageurs" qui comprend les immigrants, le personnel militaire et les membres d'équipage.

#### Voyageurs non résidents entrant au Canada:

Les statistiques cumulatives jusqu'à aujourd'hui indiquent que 31.2 millions de voyageurs non résidents en provenance des États-Unis sont entrés au Canada, soit 2.8 % de plus qu'il y a un an. Ce total inclut 27.3 millions de voyageurs en automobile dont 17.6 millions sont entrés et partis le même jour.

Dans la catégorie automobile, l'accroissement positif survenu au cours des deux premiers trimestres comparativement à l'année dernière a été quelque peu amoindri par une baisse d'année en année au troisième trimestre. La diminution du troisième trimestre provient peut-être de l'incertitude sans cesse grandissante relativement à l'approvisionnement en essence. Le régime des augmentations du troisième trimestre dans la catégorie des voyageurs en automobile pour une journée, en provenance des États-Unis, qui ont été plus que contrebalancées par une diminution du nombre des voyageurs demeurant une nuit ou plus, n'est pas sans rapport avec cette même incertitude.

Dans la catégorie autres moyens de transport, au cours des neuf premiers mois de 1973, les visiteurs par avion ont été au nombre de 1.1 million, ce qui représente 3.6 % de tous les voyageurs américains. Ce total révèle un accroissement de 22.7 % par rapport aux chiffres de l'année précédente. Dans la catégorie autocar, 1.3 million de voyageurs ont été inscrits et ce chiffre se divise presque également entre les voyages d'une journée et ceux d'une nuit ou plus.

Le nombre de voyageurs en provenance des États-Unis arrivant au Canada par autocar au cours des neuf mois a pro-

per cent rate. This growth is concentrated in those travellers staying one or more nights with a decrease recorded in same day bus travellers. Thus a structural shift appears to have taken place from long term automobile travellers to long term bus and plane travellers especially in the third quarter. This shift will likely accelerate in coming months in the face of increasing shortages of fuel.

Non-resident travellers entering Canada from countries other than the United States during the first three quarters of 1973 numbered 904,000 persons, up 22.4 per cent from the previous year and surpassing the aggregate number of travellers entering in 1972. Country of residence statistics show that 290,000 travellers entered from the United Kingdom; Germany, 97,000, France, 60,000; Japan, 56,000; and the Netherlands, 50,000. Of these countries, Germany and Japan recorded the largest relative growth rates of 33.2 and 32.4 per cent respectively. These high growth rates may result to some extent from the devaluation of the dollar.

#### Resident travellers returning to Canada:

Canadian residents re-entering from the United States during the January to September period numbered 24.6 million travellers, an increase of 1.6 per cent from last year. Residents returning by automobile in the first nine months numbered 21.8 million travellers, up 1.2 per cent from the previous year. The majority of Canadian automobile re-entries were recorded as being same day, accounting for 65.7 per cent of aggregate re-entries.

During the peak travelling period of July to September, residents re-entering from the United States by automobile decreased on a year to year basis by 3.0 per cent, in contrast to the year over year increases recorded in each of the preceding two quarters. Decreases were recorded in all categories of re-entries by automobile. Most significant was the 7.6 per cent decrease recorded for residents remaining two or more nights in the United States, whereas increases were recorded over the year for the first two quarters of this year. This drop in residents re-entering by automobile may be attributed to pessimistic expectations of fuel availability in the United States.

In the non-automobile category, Canadian residents re-entering from the United States by plane in the first nine months of 1973 numbered 1.0 million travellers, up 21.4 per cent from a year earlier. Residents re-entering by bus numbered 1.1 million, down 5.0 per cent from the previous year. Same day bus re-entries represented 63.4 per cent of the aggregate. Although cumulative train re-entries which are a small segment of the total traffic have more than doubled since last year, the underlying trend is difficult to ascertain due to the national rail strike in August this year.

In the first nine months of 1973, residents re-entering from countries other than the United States numbered 1.1 million travellers, up 19.5 per cent from last year. A breakdown by type of transportation shows that 97 per cent re-entered by plane. Canadian residents re-entering direct represented 90 per cent of the Canada total. The growth in Canadian resident travel to countries other than the United States does not appear to be hindered by the currency realignment and high rates of inflation experienced in some overseas countries.

gressé à un taux de 7.1 %. Cette progression est attribuable surtout aux voyageurs qui ont séjourné une nuit ou plus et il y a eu diminution du nombre des voyageurs d'une journée. Il semble donc être survenu un revirement de la structure: les voyageurs faisant un séjour prolongé en automobile passant plutôt au troisième trimestre dans la catégorie des voyageurs faisant un séjour prolongé en autocar et en avion. Ce revirement s'accroîtra sans doute au cours des prochains mois en raison de la pénurie croissante de carburant.

Les voyageurs non résidents entrant au Canada en provenance de pays autres que les États-Unis au cours des trois premiers trimestres de 1973 ont été au nombre de 904,000 personnes, soit 22.4 % de plus que l'année précédente et ils surpassent l'agrégat des voyageurs arrivés en 1972. Les statistiques des pays de résidence révèlent que 290,000 voyageurs sont arrivés en provenance du Royaume-Uni, 97,000, du l'Allemagne, 60,000, de la France, 56,000, du Japon et 50,000, des Pays-Bas. Parmi ces pays, l'Allemagne et le Japon est enregistré respectivement des taux d'accroissements relatifs de 33.2 % et 32.4 %. Ces taux élevés d'accroissement proviennent dans une certaine mesure de la dévaluation du dollar.

#### Voyageurs résidents entrant au Canada:

Les résidents canadiens revenant des États-Unis entre janvier et septembre ont été au nombre de 24.6 millions, soit une augmentation de 1.6 % par rapport à l'année dernière. Les résidents revenant par automobile au cours des neuf premiers mois ont été au nombre de 21.8 millions, soit 1.2 % de plus que l'année précédente. La majorité des rentrées canadiennes en automobile se sont effectuées le même jour, soit 65.7 % de l'agrégat des rentrées.

Au cours de la période de pointe des voyages, soit de juillet à septembre, les résidents revenant des États-Unis par automobile ont diminué de 3.0 % comparativement à l'année passée contre des augmentations enregistrées dans chacun des deux trimestres précédents. Des diminutions ont été enregistrées par toutes les catégories de rentrées par automobile. La plus importante a été une diminution de 7.6 % des résidents demeurant deux nuits ou plus aux États-Unis alors qu'il y avait augmentation par rapport à l'année précédente au cours des deux premiers trimestres de la présente année. Ce recul du nombre de résidents revenant en automobile peut être attribué au pessimisme relativement à la disponibilité du carburant aux États-Unis.

Dans la catégorie autres moyens de transport, les résidents canadiens revenant des États-Unis par avion au cours des neuf premiers mois de 1973 ont été au nombre de 1.0 million de voyageurs, soit 21.4 % de plus qu'il y a un an. Les résidents revenant par autocar ont été au nombre de 1.1 million, soit 5.0 % de moins que l'année précédente. Les rentrées par autocar le même jour représentent 63.4 % de l'agrégat. Même si les rentrées cumulatives par train représentent une faible partie du total des voyageurs, elles ont néanmoins doublé depuis un an, la tendance sous-jacente est difficile à confirmer à cause de la grève nationale des chemins de fer en août.

Au cours des neuf premiers mois de 1973, les résidents rentrant de pays autres que les États-Unis ont été au nombre de 1.1 million, soit 19.5 % de plus que l'année précédente. Une ventilation par moyen de transport indique que 97 % des rentrées se sont faites par avion. Les résidents canadiens rentrant directement représentent 90 % du total du Canada. L'accroissement des voyages des résidents canadiens à destination de pays autres que les États-Unis ne semble pas souffrir de la réévaluation de la monnaie ni des taux élevés d'inflation dans certains pays d'outre-mer.

(1) Most vehicles destined to Newfoundland, Prince Edward Island and Nova Scotia enter Canada through ports in other provinces where they are recorded.

(2) Includes entries through Routes 9, 9A and 9B.

(3) Estimated on the basis of sample scheme.

(4) Includes entries through Douglas.

a) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

b) Comprend les véhicules entrés par les routes 9, 9A et 9B.

c) Données estimatives tirées d'un échantillon.

d) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

E62 Entry Tally - To record travellers by land and car ferry at ports of entry on the United States - Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25 per cent count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

E63 Private Craft and Passenger Arrivals - To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

E64 Referral Card - To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100 per cent count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-992-5507).

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

E62 Feuille de pointage des arrivés, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontalières États-Unis - Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25 % effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargo de traversiers et des navires de croisière.

E64 Referral Card, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol notifié et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux Statistique Canada, Ottawa K1A 0Z8 (613-992-5507).

## Definition of Terms

**International Traveller.** — The term international traveller applies to all persons arriving in Canada are cleared through Customs and Immigration points entry. One person may cross into Canada several times on one trip away from home. The method of selection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and tourist traveller. If all "same day" travellers are included from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller.** — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

**Resident Traveller.** — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers.** — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land.** — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air.** — Commercial and charter services and private plane.

**Marine.** — Commercial and cruise ship, passenger ship, or private or rented boat, and passengers on sighters.

**Other Methods.** — Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada.** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States.** — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: non-resident entering direct to Canada who visits the United States during his trip would be counted as direct; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in the Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States.** — In the case of non-residents, this designation includes all countries other than Continental United States, Alaska and Hawaii. In the case of Canadian resident travellers, this designation includes Hawaii and all countries other than Continental United States and Alaska.

## Définitions des termes

**Voyageur international.** — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories "voyageurs non résidents" et "voyageurs résidents", les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident.** — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire;
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emptettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Voyageur résident.** — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons que ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs.** — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure;
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre.** — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air.** — Services commerciaux, vols nolisés et avions particuliers.

**Par eau.** — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens.** — À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada.** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis.** — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance: il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois: comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant au pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis.** — Pour les non-résidents, cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii. Pour les voyageurs résidents du Canada, cette catégorie comprend Hawaii et tous les pays autres que les États-Unis (partie continentale) et l'Alaska.

16. Nombre de voyageurs entre le Canada et les autres pays, par bureau d'entrée et moyen de transport . . . . .	144
17. Résidents de pays autres que les États-Unis, entrant au Canada, par pays de résidence et bureau d'entrée . . . . .	158
18. Résidents du Canada revenant de pays autres que les États-Unis, par bureau de ren-trée . . . . .	162

Cumulative statistics for January to October 1973 show that 65.9 million international travellers entered Canada, an increase of 3.0 per cent over the same period last year. This aggregate comprises 34.7 million non-resident travellers, 28.3 million resident travellers and 2.9 million in the "other travellers" category which includes immigrants, military personnel and crews.

The figures to date this year show that Canadian residents re-entering from the United States numbered 1.0 million, up 1.3 per cent from a year earlier. Non-resident travellers from the United States numbered 33.7 million, up 2.9 per cent from the previous year. Residents returning from countries other than the United States advanced by 18.7 per cent over last year to 1.2 million travellers, while approximately 1.0 million travellers from countries other than the United States entered Canada, an increase of 22.2 per cent over the same period last year.

#### Non-resident travellers entering Canada:

Non-resident travellers from the United States entering Canada in October numbered 2.5 million persons, up 4.2 per cent over a year earlier. Of this aggregate 2.2 million or 88.8 per cent entered by automobile as compared to 89.8 per cent last year. Of those entering by automobile 1.5 million entered and left on the same day, a small increase from the previous year. United States travellers entering for two or more nights numbered 577,000 persons, an increase of 12.0 per cent over last year.

In the non-automobile categories, travellers from the United States entering Canada by plane in October numbered 119,000 persons, up 18.9 per cent from a year earlier. In the bus category, statistics for October show that 120,000 non-residents from the United States entered, an increase of 19.7 per cent from the previous year. Of the total entering by bus, slightly more than one half entered and left on the same day.

Non-resident travellers from countries other than the United States in October numbered 90,900 persons, up 19.8 per cent since last year. An area breakdown indicates 69.7 per cent came from Europe, of which 23,600 persons from the United Kingdom accounted for about one quarter of the aggregate and approximately four-tenths of the European entries. Following the United Kingdom, the largest traveller flows from Europe were from Germany, 12,600; France, 6,100; and Italy, 4,000. Travellers from Asia accounted for about 14 per cent of the aggregate. Non-resident travellers from Japan numbered 7,900 persons, representing well over one half of the Asia total.

The currency realignments since 1971 and a lower inflation rate in Canada than other major countries has brought about a dramatic lowering of cost to visitors to Canada from countries other than the United States. Cumulative entry statistics for the first ten months of 1973 show year-to-year growth for Germany of 35.1 per cent, followed by Japan, 33.6 per cent, the Netherlands, 29.4 per cent, and the United Kingdom, 27.8 per cent. On a year to year basis, travellers from countries other than the United States for the January to October period grew at a 22.2 per cent rate. Because the foreign traveller base is low compared with United States travellers to Canada, large percentage increases translate into fairly modest gains in actual numbers.

Les statistiques cumulatives pour la période de janvier à octobre 1973 révèlent que 65,9 millions de voyageurs internationaux sont entrés au Canada, soit une augmentation de 3.0 % par rapport à la période correspondante de 1972. Cet agrégat comprend 34,7 millions de voyageurs non résidents, 28,3 millions de résidents et 2,9 millions d'"autres voyageurs", catégorie qui comprend les immigrants, les militaires et les membres d'équipage.

Les chiffres cumulatifs de cette année montrent que 27.0 millions de résidents canadiens sont revenus des États-Unis, soit une augmentation de 1.3 % par rapport à il y a un an. Le nombre de voyageurs non résidents en provenance des États-Unis s'est élevé à 33,7 millions, soit une augmentation de 2.9 % par rapport à l'année précédente. Le nombre de résidents revenant de pays autres que les États-Unis était supérieur de 18.7 % aux 1.2 millions de voyageurs de 1972; environ 1,0 million de voyageurs en provenance de pays autres que les États-Unis sont entrés au Canada, soit une augmentation de 22.2 % par rapport à la période correspondante de 1972.

#### Voyageurs non résidents entrant au Canada:

Le nombre de voyageurs non résidents en provenance des États-Unis pour le mois d'octobre s'est élevé à 2,5 millions, une augmentation de 4.2 % par rapport à il y a un an. De cet agrégat, 2,2 millions ou 88.8 % sont entrés en automobile, contre 89.8 % en 1972. De ce nombre, 1,5 millions sont arrivés et repartis le même jour, ce qui représente une légère augmentation par rapport à l'an dernier. Le nombre de voyageurs américains séjournant deux nuits ou plus s'est élevé à 577,000 personnes, soit une hausse de 12.0 % par rapport à l'année dernière.

Dans la catégorie "autres moyens de transport", 119,000 voyageurs américains sont entrés au Canada en octobre par avion, soit une hausse de 18.9 % par rapport à il y a un an. Dans la catégorie "autocar", les statistiques d'octobre révèlent que 120,000 voyageurs non résidents en provenance des États-Unis sont entrés, soit une augmentation de 19.7 % par rapport à l'année précédente. Du nombre total de voyageurs entrés par autocar, un peu plus de la moitié sont arrivés et repartis le même jour.

En octobre, 90,900 voyageurs non résidents en provenance de pays autres que les États-Unis sont entrés au Canada, soit 19.8 % de plus qu'en octobre 1972. Ils se répartissaient ainsi: 69.7 % venaient d'Europe, dont 23,600 personnes en provenance du Royaume Uni rendaient compte d'environ un quart de l'agrégat et de quatre dixième environ des entrées européennes. Après celui du Royaume Uni, les groupes de voyageurs les plus nombreux en provenance d'Europe venaient d'Allemagne, 12,600; de France, 6,100; et d'Italie, 4,000. Les voyageurs en provenance de l'Asie rendaient compte d'environ 14 % de l'agrégat. Les voyageurs non résidents en provenance du Japon ont été au nombre de 7,900 personnes, ce qui représente plus de la moitié des voyageurs asiatiques.

Les réalignements monétaires qui ont eu lieu depuis 1971 et un taux d'inflation moins élevé au Canada que dans les autres grands pays, ont occasionné une diminution d'importance des frais engagés par les visiteurs entrant au Canada en provenance de pays autres que les États-Unis. Les statistiques cumulatives des entrées pour les dix premiers mois de 1973 font voir une croissance d'une année à l'autre de 35.1 % pour l'Allemagne, de 33.6 % pour le Japon, de 29.4 % pour les Pays-Bas et de 27.8 % pour le Royaume Uni. D'une année à l'autre, le nombre de voyageurs en provenance de pays autres que les États-Unis, pendant la période de janvier à octobre, a atteint un taux de 22.2 %. Parce que le nombre de voyageurs étrangers au Canada est bas par rapport à celui des voyageurs américains, les hauts pourcentages d'accroissement se traduisent par de légères hausses en chiffres réels.

Resident travellers returning to Canada:

Residents of Canada re-entering from the United States in October numbered 2.4 million travellers, a decrease of 1.7 per cent from a year earlier. Residents re-entering by automobile numbered 2.2 million persons or 89.2 per cent of aggregate re-entries, down 2.2 per cent from last year. The majority of automobile re-entries were same day, accounting for 76 per cent of total automobile re-entries in October.

In the non-automobile categories, residents re-entering by plane in October numbered 104,300, up 17.3 per cent from last year, with commercial plane re-entries accounting for almost all of this number. Canadian residents re-entering by bus numbered 119,100 up 2.2 per cent from the previous year, with 74,600 same day and 44,500 one or more nights re-entries. Residents returning by bus who remained one or more nights in the United States increased by 4.5 per cent over last year and accounted for 37.4 per cent of all bus re-entries. Thus on a year-to-year basis the apparent shift from automobile to non-automobile travel is consistent with the predicted fuel shortage effects for resident travel to the United States.

Canadian residents returning from countries other than the United States in October numbered 97,000 travellers, an increase of 9.4 per cent from a year earlier. As in preceding months, the proportion of Canadians re-entering direct by air has remained relatively constant at 90 per cent of all re-entries.

Cumulative statistics to date show that residents travelling to countries other than the United States have continued to increase despite the higher costs resulting from the currency realignments and higher rates of inflation in other major countries. Thus for the first ten months of 1973, residents travelling to such nations numbered 1.2 million persons, an increase of 18.7 per cent over the same period last year. Part of the reason may be that in many instances people having made their travel plans decided to go ahead despite the higher costs but settled for shorter stays and headed for less expensive areas. Analysis of the sample survey results for the year 1973 may provide some clues as to whether changes in patterns did in fact occur.

Voyageurs résidents revenant au Canada:

Le nombre de résidents canadiens en provenance des États-Unis en octobre s'est élevé à 2.4 millions, soit une baisse de 1.7 % par rapport à il y a un an. Les résidents revenant en automobile ont été au nombre de 2.2 millions, soit 89.2 % de l'agrégat, et 2.2 % de moins que l'an dernier. La plupart des voyageurs rentrant en automobile étaient sortis le même jour, et ils rendaient compte de 76 % des rentrées totales en automobile en octobre.

Dans la catégorie "autres moyens de transport", le nombre de résidents rentrant en octobre par avion s'est élevé à 104,300, soit une augmentation de 17.3 % par rapport à la période correspondante de 1972 et les vols commerciaux rendaient compte de la quasi totalité de ce nombre. Le nombre de résidents canadiens rentrant en autocar s'est élevé à 119,100, augmentation de 2.2 % par rapport à l'an dernier, dont 74,600 voyageurs sont rentrés la même journée et 44,500, après un séjour d'une nuit ou plus. Le nombre de résidents revenant par autocar après un séjour d'une nuit ou plus aux États-Unis s'est accru de 4.5 % par rapport à il y a un an et rend compte de 37.4 % de tous les voyageurs rentrés par autocar. Ainsi, le fait qu'on emprunte davantage les autres moyens de transport au détriment de l'automobile est conforme aux effets prévus de la pénurie d'essence sur les voyages des résidents vers les États-Unis.

Le nombre de résidents canadiens revenant de pays autres que les États-Unis s'est élevé à 97,000 en octobre, soit 9.4 % de plus qu'il y a un an. Comme pour les mois précédents, la proportion de Canadiens rentrant par la voie des airs est demeurée constante, s'établissant à 90 % de toutes les rentrées.

Les statistiques cumulatives révèlent que le nombre de résidents voyageant dans des pays autres que les États-Unis s'est accru malgré l'augmentation des frais qu'a occasionné le réalignement des monnaies et les taux élevés d'inflation dans les autres grands pays. Ainsi, pour les dix premiers mois de 1973, le nombre de résidents voyageant dans ces pays s'est élevé à 1.2 millions, soit une augmentation de 18.7 % par rapport à la période correspondante de 1972. Il se pourrait que les personnes ayant déjà tracé leur itinéraire ont décidé de le suivre malgré l'augmentation des frais mais ont abrégé leur séjour et ont visité des régions moins dispendieuses. L'analyse des résultats de l'enquête échantillon pour l'année 1973 nous indiquera peut-être s'il y a eu modification des régimes.

(1) Most vehicles destined to Newfoundland, Prince Edward Island and Nova Scotia enter Canada through ports in other provinces where they are recorded.

(2) Includes entries through Routes 9, 9A and 9B.

(3) Estimated on the basis of sample scheme.

(4) Includes entries through Douglas.

(1) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

(2) Comprend les véhicules entrés par les routes 9, 9A et 9B.

(3) Données estimatives tirées d'un échantillon.

(4) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

**E62 Entry Tally** - To record travellers by land and car ferry at ports of entry on the United States - Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25 per cent count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

**E63 Private Craft and Passenger Arrivals** - To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

**E64 Referral Card** - To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100 per cent count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-992-5507).

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

**E62 Feuille de pointage des arrivés**, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis - Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25 % effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

**E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers**, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargos, de traversiers et des navires de croisière.

**E64 Referral Card**, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux, Statistique Canada, Ottawa K1A 0Z8 (613-992-5507).

## Definition of Terms

**International Traveller.** - The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups: non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

**Non-resident traveller.** - An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

**Resident Traveller.** - An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

**Other Travellers.** - A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

**Land.** - Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

**Air.** - Commercial and charter services and private plane.

**Marine.** - Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

**Other Methods.** - Pedestrians, bicycle, motorcycle, etc.

**Direct to Canada.** - Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

**Via the United States.** - Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in the Southern United States who travels to the Caribbean would be counted as returning via the United States.

**Countries Other than the United States.** - In the case of non-residents, this designation includes all countries other than Continental United States, Alaska and Hawaii. In the case of Canadian resident travellers, this designation includes Hawaii and all countries other than Continental United States and Alaska.

## Définitions des termes

**Voyageur international.** - Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories "voyageurs non résidents" et "voyageurs résidents", les autres répondent à peu près à la définition internationale de "touriste".

**Voyageur non résident.** - Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire;
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou éplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

**Voyageur résident.** - Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qu'il ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

**Autres voyageurs.** - Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure;
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

**Par terre.** - En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

**Par air.** - Services commerciaux, vols nolisés et avions particuliers.

**Par eau.** - Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

**Autres moyens.** - À pied, à bicyclette, en motocyclette, etc.

**Directement au Canada.** - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

**Via les États-Unis.** - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance: il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois: comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant au pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

**Pays autres que les États-Unis.** - Pour les non-résidents, cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii. Pour les voyageurs résidents du Canada, cette catégorie comprend Hawaii et tous les pays autres que les États-Unis (partie continentale) et l'Alaska.

Cumulative statistics for January to November, 1973 show that 70.0 million international travellers entered Canada, an increase of 2.9 per cent from a year earlier. This aggregate comprises 36.6 million non-resident travellers, 30.2 million resident travellers and 3.2 million in the "other travellers" category which includes immigrants, military personnel and crews.

In the first eleven months of this year, Canadian residents re-entering from the United States numbered 28.9 million travellers, an increase of 1.1 per cent from last year. Non-resident travellers from the United States numbered 35.5 million, up 2.7 per cent from the previous year. Resident travellers re-entering from countries other than the United States advanced by 19.0 per cent over last year to 1.3 million. Approximately 1.1 million travellers from countries other than the United States entered Canada, an increase of 22.3 per cent from a year earlier.

Non-resident travellers entering Canada:

In November 1.8 million non-resident travellers from the United States entered Canada, unchanged from the previous year. This total includes 1.6 million automobile travellers representing about 90 per cent of total United States entries, similar to last year. Decreases of between 2 and 3 per cent were noted in the automobile categories same day and one night while an increase of 7 per cent was recorded in entries for two or more nights.

In the non-automobile categories, non-residents from the United States entering Canada by plane numbered 89,000 travellers, up 8.5 per cent from a year earlier. Statistics for November show that bus travellers from the United States numbered 70,000 of which 64 per cent represented same day entries as compared with 55 per cent the previous year.

Province of entry statistics show that in November, 1.1 million travellers from the United States entered Ontario, representing 50 per cent of the Canada aggregate. New Brunswick recorded 258,000 United States travellers, of which 81 per cent were same day automobile travellers. United States

Les statistiques cumulatives pour la période de janvier à novembre 1973 révèlent que 70.0 millions de voyageurs internationaux sont entrés au Canada, soit une augmentation de 2.9 % par rapport aux chiffres de la période correspondante de 1972. Cet agrégat comprend 36.6 millions de voyageurs non résidents, 30.2 millions de voyageurs résidents et 3.2 millions d'"autres voyageurs", catégorie qui comprend les immigrants, les militaires et les membres d'équipage.

Au cours des onze premiers mois de 1973, 28.9 millions de résidents canadiens sont revenus des États-Unis, soit une augmentation de 1.1 % par rapport à la période correspondante de 1972. Le nombre de voyageurs non résidents en provenance des États-Unis s'est élevé à 35.5 millions, soit une hausse de 2.7 % par rapport à l'année précédente. Le nombre de voyageurs résidents revenant de pays autres que les États-Unis (1.3 million) a été de 19.0 % supérieur à celui de 1972. Environ 1.1 million de voyageurs en provenance de pays autres que les États-Unis sont entrés au Canada, soit une progression de 22.3 % par rapport au chiffre de l'année précédente.

Voyageurs non résidents entrant au Canada:

En novembre, le nombre de voyageurs non résidents entrant au Canada en provenance des États-Unis est resté le même que celui d'il y a un an, soit 1.8 million. De ce nombre, 1.6 million ou environ 90 % sont entrés en automobile, soit l'équivalent de l'année précédente. Les entrées en automobile ont enregistré des baisses variant entre 2 et 3 % pour ce qui est des catégories "même jour" et "une nuit" et une augmentation de 7 % pour ce qui est de la catégorie "deux nuits ou plus".

Dans le cas des moyens de transport autres que l'automobile, 89,000 voyageurs non résidents en provenance des États-Unis sont entrés au Canada par avion, soit une hausse de 8.5 % par rapport au nombre de l'année précédente. Les statistiques de novembre révèlent que 70,000 voyageurs sont entrés des États-Unis par autocar; de ce nombre 64 % sont arrivés et repartis le même jour, contre 55 % l'année précédente.

Selon les statistiques de novembre sur la province d'entrée, 1.1 million de voyageurs en provenance des États-Unis sont entrés en Ontario, soit 59 % du total de l'ensemble du Canada. Le Nouveau-Brunswick a enregistré 258,000 voyageurs américains dont 81 % sont arrivés et repartis en automobile le même jour. Le Québec et la Colombie-

travellers entering Quebec and British Columbia numbered 226,000 and 172,000 persons; accounting for 12 and 9 per cent respectively of the Canada total.

Non-resident travellers from countries other than the United States numbered 53,000 persons in November, up 25.4 per cent from the previous year. A country of residence breakdown of this aggregate shows that the leading countries were the United Kingdom, 11,300; followed by Germany, 6,400; Japan, 4,900; France, 4,000; Italy, 2,400; and the Netherlands, 1,400. The highest year to year growth was that of Germany and Japan at 63.4 and 62.4 per cent respectively.

Province of entry statistics show that for November, 63 per cent of the travellers from the United Kingdom and 80 per cent of the arrivals from Germany entered in Ontario. Quebec recorded 59 per cent of the travellers from France. The majority of travellers from Japan entered in Ontario (68 per cent) followed by British Columbia (24 per cent).

#### Resident travellers returning to Canada:

Canadian residents re-entering from the United States in November numbered 1.9 million travellers, a decrease of 1.7 per cent from a year earlier. Canadian travellers re-entering by automobile numbered 1.7 million, down 2.7 per cent from last year. This total was 88 per cent of all re-entries as compared to 89 per cent the previous year. Canadian residents leaving and re-entering by automobile on the same day numbered 1.4 million travellers representing 71 per cent of the Canada aggregate.

In the non-automobile categories in November, 106,000 residents re-entered Canada by plane, an increase of 21.1 per cent from last year, with commercial plane re-entries accounting for almost 97 per cent of this number. In the bus category, 98,000 residents were recorded re-entering, 68 per cent same day and 32 per cent one or more nights bus re-entries. Total bus re-entries increased by 4.7 per cent from last year.

Province of re-entry statistics show that 830,000 Canadian residents re-entered from the United States in Ontario in November, accounting for 43 per cent of the Canada total. The province of New Brunswick followed with 422,000 residents re-entering or 22 per cent of the aggregate mainly because of the large proportion of same day

Britannique ont compté respectivement 226,000 et 172,000 voyageurs américains, soit respectivement 12 et 9 % du total pour le Canada.

En novembre, 53,000 voyageurs non résidents en provenance de pays autres que les États-Unis sont entrés au Canada, soit 25.4 % de plus qu'en novembre 1972. Voici la ventilation des principaux pays de résidence inclus dans cet agrégat: Royaume-Uni, 11,300; Allemagne, 6,400; Japon, 4,900; France, 4,000; Italie, 2,400; Pays-Bas, 1,400. L'Allemagne et le Japon ont enregistré les plus fortes croissances d'une année à l'autre, soit 63.4 et 62.4 % respectivement.

Selon les statistiques de novembre sur la province d'entrée, 63 % des voyageurs en provenance du Royaume-Uni et 80 % des voyageurs en provenance d'Allemagne sont entrés en Ontario. Le Québec a reçu 59 % des voyageurs venant de France. La majorité des voyageurs en provenance du Japon, soit 68 %, sont entrés en Ontario et 24 % en Colombie-Britannique.

#### Voyageurs résidents revenant au Canada:

Le nombre de résidents canadiens revenant au pays en provenance des États-Unis s'est établi à 1.9 million, soit une baisse de 1.7 % par rapport à celui de novembre 1972. Le nombre de voyageurs canadiens revenant en automobile a été de 1.7 million, soit 2.7 % de moins que l'année précédente. Ce chiffre représente 88 % de toutes les rentrées, comparativement à 89 % l'année précédente. Il y a eu 1.4 million de résidents canadiens qui sont sortis et rentrés en automobile le même jour, ce qui représente 71 % de l'agrégat canadien.

Pour ce qui est des moyens de transport autres que l'automobile, 106,000 résidents sont rentrés au Canada en avion, soit une augmentation de 21.1 % par rapport aux chiffres de novembre 1972; les vols commerciaux ont rendu compte de presque 97 % de ce nombre. On a enregistré 98,000 résidents rentrant au pays en autocar, dont 68 % le même jour et 32 % après un séjour d'une nuit ou plus. Les rentrées en autocar ont augmenté de 4.7 % depuis novembre 1972.

D'après les statistiques de novembre sur la province de rentrée, 830,000 résidents canadiens sont rentrés des États-Unis en Ontario, soit 43 % du total pour l'ensemble du Canada. Le Nouveau-Brunswick a suivi avec 422,000 rentrées de résidents ou 22 % de l'agrégat canadien; cela s'explique surtout par le grand nombre d'automobiles qui entrent et ressortent le même jour (84 % du

automobile traffic (84 per cent of the province total). Next in order, British Columbia and Quebec recorded 328,000 and 237,000 returning residents which accounted for 17 and 12 per cent of the aggregate respectively.

Residents of Canada re-entering from countries other than the United States in November numbered 66,000 travellers, up 26 per cent from a year earlier. Residents re-entering direct by plane accounted for about 84 per cent of this aggregate. Province of re-entry statistics show that 47 per cent of returning residents re-entered in Ontario, as compared to 33 per cent in Quebec.

total provincial). La Colombie-Britannique et le Québec viennent ensuite avec 328,000 et 237,000 résidents rentrant au pays, ce qui représente 17 et 12 % de l'agrégat.

Le nombre de résidents canadiens revenant de pays autres que les États-Unis s'est élevé à 66,000, soit 26 % de plus qu'en novembre 1972. Les résidents rentrant directement par avion ont contribué pour 84 % de cet agrégat. Les statistiques sur la province de rentrée indiquent que 47 % des résidents sont rentrés en Ontario, contre 33 % au Québec.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

E62 Entry Tally - To record travellers by land and car ferry at ports of entry on the United States - Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25 per cent count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

E63 Private Craft and Passenger Arrivals - To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

E64 Referral Card - To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100 per cent count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-992-5507).

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

E62 Feuille de pointage des arrivés, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis - Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25 % effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargos, de traversiers et des navires de croisière.

E64 Referral Card, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux, Statistique Canada, Ottawa K1A 0Z8 (613-992-5507).

## Definition of Terms

International Traveller. - The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

Non-resident traveller. - An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

Resident Traveller. - An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

Other Travellers. - A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

Land. - Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

Air. - Commercial and charter services and private plane.

Marine. - Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on reighters.

Other Methods. - Pedestrians, bicycle, motorcycle, etc.

Direct to Canada. - Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

Via the United States. - Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in the Southern United States who travels to the Caribbean could be counted as returning via the United States.

Countries Other than the United States. - In the case of non-residents, this designation includes all countries other than Continental United States, Alaska and Hawaii. In the case of Canadian resident travellers, this designation includes Hawaii and all countries other than Continental United States and Alaska.

## Définitions des termes

Voyageur international. - Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories "voyageurs non résidents" et "voyageurs résidents", les autres répondent à peu près à la définition internationale de "touriste".

Voyageur non résident. - Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire;
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

Voyageur résident. - Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qui ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

Autres voyageurs. - Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure;
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

Par terre. - En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

Par air. - Services commerciaux, vols nolisés et avions particuliers.

Par eau. - Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

Autres moyens. - À pied, à bicyclette, en motocyclette, etc.

Directement au Canada. - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

Via les États-Unis. - Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance: il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois: comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant au pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

Pays autres que les États-Unis. - Pour les non-résidents, cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii. Pour les voyageurs résidents du Canada, cette catégorie comprend Hawaii et tous les pays autres que les États-Unis (partie continentale) et l'Alaska.

Preliminary estimates for the year 1973 showed that Canada recorded a deficit of \$290 million on travel account with all countries as compared to a deficit of \$230 million in the previous year. Total receipts of \$1,394 million from international travel were more than offset by spending of \$1,684 million abroad. These estimates include transportation costs paid to Canadian carriers by non-residents entering Canada and fares paid to foreign carriers by residents of Canada.

Receipts on travel account comprise \$1,124 million earned from United States travellers entering Canada and \$270 million earned from non-resident travellers from other countries. Travel receipts from the United States increased at an annual rate of 9.9%, while the number of travellers increased by only 3%. However, receipts from countries other than the United States increased 30.4%, paralleling the growth in numbers of travellers from these countries.

Payments on travel account to the United States in 1973 totalled \$1,047 million, up 13.9% from the previous year. The growth in travel payments to all other countries increased 16.9% to \$637 million resulting primarily from numbers of Canadian travellers to these countries.

In 1973, international travellers entering Canada numbered 73.9 million, an increase of 2.8% from a year earlier. This aggregate comprises 38.3 million non-resident travellers, 32.1 million returning Canadian residents, and 3.5 million in the "other travellers" category which includes immigrants, military personnel and crews.

#### Non-resident travellers entering Canada:

In 1973, total non-resident travellers from the United States entering Canada, excluding crews, numbered 37.2 million, up 2.6% from last year. The growth in United States travellers in 1973 primarily occurred in the first half of the year.

United States travellers entering Canada by automobile in 1973 numbered 32.7 million, up 1.6% from a year earlier, and accounted for 88% of all United States resident entries. Of the automobile travellers, United States residents entering and leaving Canada on the same day accounted for 66%, similar to last year. A disaggregation of United States automobile travellers shows that those travellers remaining two or more nights in Canada during the October to December period increased 7.1% over the year as compared to a decrease of 1.6% in the third quarter. Growth in the same day automobile category was marginal in the fourth quarter as compared to 1.5% in the third quarter.

Non-resident travellers from the United States entering by plane in 1973 numbered 1.4 million, up 20.3% from the previous year and accounting for 3.8% of total United States traveller entries. In the bus category, 1.5 million United States travellers or 4.0% of the aggregate were recorded, with an even split between same day and one or more nights travel; this represented an increase of 6.7% from the previous year. The fourth quarter growth on a year-to-year basis in both United States plane and bus travellers was significantly less than the preceding quarters of 1973.

Les estimations provisoires pour l'année 1973 révèlent que le Canada a enregistré un déficit de 290 millions de dollars au compte des voyages avec tous les pays comparativement à un déficit de 230 millions l'année précédente. Les recettes totales des voyages internationaux ont été de 1,394 millions de dollars et elles ont été plus que contrebalancées par les dépenses à l'étranger (1,684 millions de dollars). Ces estimations incluent les frais de transport versés à des transporteurs canadiens par des non-résidents entrant au Canada et les montants versés à des transporteurs étrangers par les résidents du Canada.

Les recettes au compte des voyages comprennent 1,124 millions de dollars fournis par les voyageurs des États-Unis entrant au Canada et 270 millions de dollars provenant de voyageurs non résidents des autres pays. Les recettes des voyages en provenance des États-Unis ont augmenté à un taux annuel de 9.9 % alors que le nombre de voyageurs s'est accru seulement de 3 %. Toutefois, les recettes provenant de pays autres que les États-Unis ont progressé de 30.4 %, tout comme le nombre de voyageurs en provenance de ces pays.

Les dépenses au compte des voyages aux États-Unis en 1973 ont totalisé 1,047 millions de dollars, soit 13.9 % de plus que l'année précédente. Les dépenses au compte des voyages dans tous les autres pays ont progressé de 16.9 % pour atteindre 637 millions de dollars surtout à cause du nombre de voyageurs canadiens dans ces pays.

En 1973, les voyageurs internationaux entrant au Canada ont été au nombre de 73.9 millions, ce qui représente une augmentation de 2.8 % par rapport à il y a un an. Cet agrégat se compose de 38.3 millions de voyageurs non résidents, de 32.1 millions de résidents canadiens revenant au pays et de 3.5 millions d'"autres voyageurs", catégorie qui comprend les immigrants, les militaires et les équipages.

#### Voyageurs non résidents entrant au Canada:

En 1973, le total des voyageurs non résidents entrant au Canada en provenance de États-Unis, sans les équipages, représentait 37.2 millions de personnes, soit 2.6 % de plus que l'année d'avant. L'accroissement du nombre des voyageurs américains en 1973 s'est effectué surtout au cours de premier semestre de l'année.

Les voyageurs des États-Unis entrant au Canada par automobile en 1973 ont été au nombre de 32.7 millions, soit 1.6 % de plus que l'année précédente et représentaient 88 % de toutes les entrées de résidents américains. Dans la catégorie "voyageurs par automobile", les résidents des États-Unis arrivant au Canada et repartant le même jour représentaient 66 % du total, tout comme l'année dernière. Une ventilation des voyageurs américains par automobile révèle que le nombre de voyageurs qui sont demeurés deux nuits ou plus au Canada entre octobre et décembre a progressé de 7.1 % depuis un an comparativement à une diminution de 1.6 % au troisième trimestre. L'accroissement dans la catégorie par automobile le même jour a été faible au quatrième trimestre alors qu'il avait été de 1.5 % au troisième trimestre.

Les voyageurs non résidents en provenance des États-Unis entrant par avion en 1973 ont été au nombre de 1.4 million, soit 20.3 % de plus que l'année précédente et représentent 3.8 % de toutes les entrées de voyageurs américains. Dans la catégorie autocar, on a enregistré 1.5 million de voyageurs américains ou 4.0 % de l'agrégé et une répartition égale entre les voyages du même jour et ceux d'une nuit ou plus; c'est là un accroissement de 6.7 % par rapport à l'année précédente. L'accroissement du quatrième semestre d'une année à l'autre, chez les voyageurs américains par avion et par autocar, a été beaucoup moindre qu'aux trimestres précédents de 1973.

In 1973, non-resident travellers from countries other than the United States numbered 1.1 million, an increase of 22.5% over 1972. An area breakdown indicates that 71% came from Europe, of which United Kingdom travellers numbered 342,100 or 43% of the European total. Following the United Kingdom, the largest traveller flows from Europe were from Germany, 120,700; France, 74,000; the Netherlands, 56,000; and Italy, 46,300. Travellers from Asia accounted for about 12% of the aggregate. Non-resident travellers from Japan numbered 71,100 persons, representing more than one half of the Asia total. The currency realignments since 1971 accompanied by relatively lower inflation rates in Canada than in certain important tourist generating areas have no doubt contributed to the large percentage increases in travellers from Germany (36.3%), Japan (35.6%), the Netherlands (28.8%) and the United Kingdom (27.6%).

#### Resident travellers returning to Canada:

In 1973, residents of Canada re-entering from the United States (excluding crews) numbered 30.8 million travellers, 1.0% above the previous year. On a quarterly basis, only the January to March period showed significant growth at 8.8%. The other quarters showed only small percentage changes on a year-to-year basis, with a drop of 2.5% during the peak travelling months of July to September.

Canadian resident travellers re-entering from the United States by automobile in 1973 numbered 27.3 million or 88.6% of the aggregate, up 0.6% from last year. The majority of automobile re-entries were same day, accounting for 75% of total automobile re-entries in 1973, similar to a year earlier.

Percentage increases were recorded in Canadian traveller re-entries by automobile on a quarterly basis in 1973 for the first six months, in both the same day and two or more nights categories. However, the final two quarters recorded decreases year over year in the above categories, with the percentage decrease in the third exceeding that in the fourth quarter. This may in part reflect some influence of the fuel shortage. On a monthly basis the effects of the energy problem are more difficult to assess although December statistics show a significant decrease (17%) in automobile traffic to the United States staying two or more nights. A clearer picture may emerge when statistics become available for the first part of 1974.

In the non-automobile category, Canadian residents re-entering from the United States by plane in 1973 numbered 1.3 million travellers, up 20.9% from the previous year and representing 4.4% of aggregate re-entries. Canadian resident travellers re-entering by bus numbered 1.4 million or 4.6% of the aggregate, a decrease of 3.8% from last year. Same day bus re-entries represented almost two thirds of all bus re-entries.

In 1973, Canadian resident travellers re-entering from countries other than the United States numbered 1.4 million, up 19.0% from a year earlier. By type of transportation, 97% re-entered by plane, a similar proportion to the previous year. The positive effects of a buoyant Canadian economy in 1973 appear to have outweighed the negative effects of currency realignments and higher price inflation in some overseas countries. The Canadian Pacific airline strike in August and September does not appear to have dampened the increase in Canadian travel to countries other than the United States.

En 1973, les voyageurs non résidents en provenance de pays autres que les États-Unis ont été au nombre de 1.1 million, ce qui représente une augmentation de 22.5 % comparativement à 1972. Une répartition par région indique que 71 % venaient d'Europe dont 342,100 voyageurs du Royaume-Uni (ou 43 % du total européen). Après le Royaume-Uni, les principaux pays d'origine des voyageurs européens étaient l'Allemagne (120,700), la France (74,000), les Pays-Bas (56,600) et l'Italie (46,300). Les voyageurs de l'Asie représentaient environ 12 % de l'agrégat. Les voyageurs non résidents en provenance du Japon étaient au nombre 71,100 soit plus de la moitié du total de l'Asie. Les réalignements monétaires survenus depuis 1971 ainsi que des taux d'inflation relativement plus faibles au Canada que dans certains pays qui fournissent un grand nombre de touristes, ont certainement contribué aux fortes augmentations en pourcentage du nombre de voyageurs en provenance de l'Allemagne (36.3 %), du Japon (35.6 %), des Pays-Bas (28.8 %) et du Royaume-Uni (27.6 %).

#### Voyageurs résidents revenant au Canada:

En 1973, 30.8 millions de résidents canadiens sont rentrés de voyages aux États-Unis (sans les équipages), soit 1.0 % de plus que l'année précédente. Trimestriellement, seule la période de janvier à mars a enregistré un important accroissement, soit 8.8 %. Les autres trimestres n'ont connu qu'une faible variation en pourcentage d'une année à l'autre avec une baisse de 2.5 % au cours des mois de pointe, c'est-à-dire de juillet à septembre.

Les résidents canadiens revenant des États-Unis par automobile en 1973 ont été au nombre de 27.3 millions (88.6 % de l'agrégat), soit 0.6 % de plus que l'année dernière. La majorité des rentrées par automobile étaient du même jour et représentaient 75 % du total des rentrées par automobile en 1973, pourcentage semblable à celui d'il y a un an.

Il y a eu des augmentations en pourcentage du nombre des rentrées des voyageurs canadiens par automobile à chaque trimestre en 1973 pour les six premiers mois dans les catégories du même jour et de deux nuits ou plus. Toutefois, les deux derniers trimestres ont enregistré des diminutions d'une année à l'autre dans les catégories susmentionnées; en pourcentage, les baisses ont été plus fortes au troisième qu'au quatrième trimestre. Cette situation peut s'expliquer en partie par la pénurie d'essence. Sur une base mensuelle, les conséquences du problème de l'énergie sont plus difficiles à évaluer bien que les statistiques de décembre révèlent une importante diminution (17 %) des voyageurs automobile séjournant deux nuits ou plus aux États-Unis. La situation se précisera peut-être lorsque les statistiques de la première partie de 1974 seront disponibles.

Dans la catégorie autres moyens de transport, les résidents canadiens revenant des États-Unis par avion en 1973 représentent 1.3 million de voyageurs, soit 20.9 % de plus que l'année précédente et 4.4 % du total des rentrées. Les résidents canadiens rentrant au pays par autocar ont été au nombre de 1.4 million ou 4.6 % de l'agrégat, ce qui représente une diminution de 3.8 % par rapport à l'année précédente. Les rentrées par autocar le même jour représentent presque les deux tiers de toutes les rentrées par autocar.

En 1973, les résidents canadiens revenant de pays autres que les États-Unis étaient au nombre de 1.4 million, soit 19.0 % de plus que l'année précédente. Selon le moyen de transport, 97 % des rentrées ont eu lieu par avion; c'est là une proportion semblable à celle de l'année précédente. Les conséquences positives d'une économie canadienne soutenue en 1973 semblent avoir contrebalancé les conséquences négatives des réalignements monétaires et d'une inflation accrue dans certains pays d'outre-mer. La grève de CP Air en août et septembre ne semble pas avoir empêché l'augmentation du nombre de voyages effectués par des Canadiens à destination de pays autres que les États-Unis.

### Estimates of One or More Nights Traffic:

Previously published statistics for 1973 have not provided a complete split between same day and one or more nights traffic, which normally becomes available upon analysis of the sample survey questionnaire. However, since the unknown segment of the travel flow is relatively small a preliminary estimate of one or more nights traffic is presented below because of its overriding importance in terms of expenditures.

On the basis of recorded counts, the following categories of United States resident travellers to Canada stayed one or more nights: automobile, 11,165,000; private plane, 93,000; bus, 781,000; and private boat, 120,000. The category "other methods" covering pedestrians as well as persons on motorcycles and bicycles are classified as entering and leaving on the same day. Train travellers, numbering 60,000, are classified as staying one or more nights.

The unknown segment of United States resident entries in 1973 totalled 1,910,000 or 5.1% of the aggregate. This segment consists of commercial plane and commercial boat travellers. Using the available sample data and past relationships, 1,196,000 were estimated to have stayed one or more nights. Thus a total of 13,416,000 United States resident travellers were estimated to have stayed one or more nights in Canada in 1973.

In estimate of non-resident travellers from countries other than the United States entering Canada and staying one or more nights is not yet available.

Canadian resident travellers returning from the United States by automobile and bus after a stay of one or more nights numbered 6,741,000 and 509,000 respectively. The "other methods" category is considered same day traffic and train travellers totaling 20,000 are classified as having stayed one or more nights.

The unknown segment consisting of Canadian travellers re-entering by plane or boat numbered 1,540,000 or 5.0% of the aggregate. Of this total, and using sample data and past relationships, 1,326,000 returning Canadian travellers are estimated to have stayed one or more nights. Thus in total, Canadian resident travellers staying one or more nights in the United States were estimated to have numbered 8,595,000 in 1973.

Canadian resident travellers to countries other than the United States can all be considered staying one or more nights abroad.

### Estimations relatives aux voyageurs d'une nuit ou plus:

Les statistiques déjà publiées pour 1973 n'ont pas établi de distinction bien nette entre les voyageurs du même jour et ceux d'une nuit ou plus; cette distinction nous apparaît habituellement après analyse du questionnaire de l'enquête échantillon. Toutefois, comme la portion inconnue du trafic est relativement faible, on peut retrouver ci-après une estimation provisoire du nombre de voyageurs d'une nuit ou plus car son importance est primordiale en ce qui concerne les dépenses.

D'après les relevés, les résidents américains des catégories suivantes en voyage au Canada ont séjourné une nuit ou plus: automobile, 11,165,000; avion particulier, 93,000; autocar, 781,000 et bateau particulier, 120,000. La catégorie "autres moyens" concerne les piétons de même que les personnes en motocyclette et bicyclette et ils sont classés comme entrant et sortant le même jour. Les voyageurs par chemin de fer (60,000) sont classés comme séjournant une nuit ou plus.

La portion inconnue des entrées de résidents américains en 1973 totalisait 1,910,000 ou 5.1 % de l'agrégat. Ce segment comprend les voyageurs par avion et bateau commerciaux. Grâce aux données fragmentaires disponibles et aux rapports précédents, on a estimé que 1,196,000 voyageurs ont séjourné une nuit ou plus. Ainsi, selon les estimations, un total de 13,416,000 voyageurs résidents des États-Unis ont séjourné une nuit ou plus au Canada en 1973.

Une estimation du nombre de voyageurs non résidents entrant au Canada en provenance de pays autres que les États-Unis et séjournant une nuit ou plus n'est pas encore disponible.

Les résidents canadiens revenant de voyage aux États-Unis par automobile et autocar après un séjour d'une nuit ou plus ont été respectivement au nombre de 6,741,000 et 509,000. Les voyageurs de la catégorie "autres moyens de transport" sont considérés comme entrant et sortant le même jour; les voyageurs par train ont totalisé 20,000 et ont été classés comme séjournant une nuit ou plus.

La portion inconnue du trafic se composait de voyageurs canadiens rentrant par avion ou bateau et groupait 1,540,000 personnes ou 5.0 % de l'agrégat. De ce total, et grâce aux données fragmentaires et aux rapports précédents, on estime que 1,326,000 voyageurs canadiens sont revenus après un séjour d'une nuit ou plus. Ainsi, dans l'ensemble, on estime à 8,595,000 les résidents canadiens qui ont séjourné une nuit ou plus aux États-Unis en 1973.

Les résidents canadiens en voyage dans des pays autres que les États-Unis peuvent tous être considérés comme ayant séjourné une nuit ou plus à l'étranger.

(1) Most vehicles destined to Newfoundland, Prince Edward Island and Nova Scotia enter Canada through ports in other provinces where they are recorded.

(2) Includes entries through Routes 9, 9A and 9B.

(3) Estimated on the basis of sample scheme.

(4) Includes entries through Douglas.

(1) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

(2) Comprend les véhicules entrés par les routes 9, 9A et 9B.

(3) Données estimatives tirées d'un échantillon.

(4) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

(1) La plupart des véhicules à destination de Terre-Neuve, de l'Île-du-Prince-Édouard et de la Nouvelle-Écosse arrivent au Canada par les bureaux situés dans d'autres provinces, où ils sont donc enregistrés.

(2) Comprend les véhicules entrés par les routes 9, 9A et 9B.

(3) Données estimatives tirées d'un échantillon.

(4) Comprend les véhicules déclarés par le bureau d'entrée de Douglas.

## METHOD OF COLLECTION

The new programme for the collection and processing of international travel statistics introduced in 1972 and outlined briefly below, has led to a more accurate count of the number of travellers entering and leaving Canada.

The direct involvement of all Customs officers across Canada in the collection of data has enabled the publication of statistics in this report. The close co-operation of officials in the Department of National Revenue, Customs and Excise, Manpower and Immigration and toll authorities across Canada is greatly appreciated.

The data in this publication are gathered from three source documents completed at all points of entry to Canada. All travellers who clear customs are recorded by category (i.e. returning residents, non-residents, etc.) the method of entry and country of residence. The documents listed below are sent directly to Statistics Canada for processing.

E62 Entry Tally - To record travellers by land and car ferry at ports of entry on the United States - Canadian border.

This count is normally on a full census basis, however at selected ports sampling techniques linked to total counts at toll points are used. A footnote appears in the port detail tables to identify these points of entry using sampling. The sample is a systematic 25 per cent count by Customs officials of United States and Canadian automobile travellers; samples are weighted monthly by Statistics Canada to total traffic counts available from toll authorities or mechanical counters. All other travellers are counted on a full census basis.

E63 Private Craft and Passenger Arrivals - To record travellers entering Canada by private plane and boat. This form is also used to record travellers on commercial freighters, passenger ferries and excursion cruises.

E64 Referral Card - To record travellers entering Canada in commercial plane and boat including charter and cruise arrivals.

A 100 per cent count of travellers at airports and seaports is undertaken through the use of this card which serves the needs of a number of other government departments, including Customs clearance. The cards, which are completed by Customs officials, contain information on the category of traveller and country of residence.

The presentation of the statistics has been revised to include monthly statistics to date over a two year period. The section on provincial data has been re-organized to show statistics for each province separately.

Due to the expanded size of the report to accommodate these changes, selected detailed tabulations on non-resident travellers by country have been condensed. If this information is required please contact Mr. Mike Valiquette, Chief, International Travel Section, Statistics Canada, Ottawa K1A 0Z8 (613-992-5507).

## MÉTHODE DE COLLECTE

Le nouveau programme de collecte et d'exploitation des statistiques sur les voyages internationaux instauré en 1972 et présenté brièvement ci-dessous permet un dénombrement plus exact des voyageurs qui entrent au Canada et qui en sortent.

La participation directe de tous les douaniers du Canada à la collecte des données a permis la publication des statistiques présentées ici. Nous apprécions grandement l'étroite collaboration des fonctionnaires du ministère du Revenu national, Douanes et accise, des représentants du ministère de la Main-d'oeuvre et de l'Immigration et des responsables des postes de péage dans tout le Canada.

Les renseignements de la présente publication proviennent de trois documents remplis à tous les points d'entrée au Canada. Tous les voyageurs qui passent à la douane sont inscrits par catégorie (c.-à-d. les résidents de retour, les non-résidents, etc.), selon le moyen de transport et le pays de résidence. Les documents décrits ci-après sont envoyés directement à Statistique Canada, où ils sont dépouillés.

E62 Feuille de pointage des arrivés, qui sert au dénombrement des voyageurs par terre et par traversier pour automobiles aux postes frontières États-Unis - Canada.

Il s'agit habituellement d'un dénombrement intégral; toutefois, à certains endroits, on utilise des techniques d'échantillonnage que l'on combine à un dénombrement total effectué aux postes de péage. Un renvoi est donné au bas des tableaux en cause afin d'identifier les points d'entrée qui utilisent l'échantillonnage. L'échantillon représente un dénombrement systématique de 25 % effectué par les douaniers pour les personnes des États-Unis et du Canada qui voyagent en automobile. Statistique Canada pondère chaque mois les échantillons avec le nombre total de voyageurs fourni par les responsables des postes de péage ou établi par compteur automatique. Tous les autres voyageurs font l'objet d'un dénombrement intégral.

E63 Arrivées d'aéronefs et de navires particuliers et de leurs passagers, qui sert au dénombrement des voyageurs arrivant en avion ou en bateau particulier. Cette formule sert aussi au dénombrement des personnes voyageant à bord de cargos, de traversiers et des navires de croisière.

E64 Referral Card, qui sert au dénombrement de voyageurs arrivant au Canada par avion et bateau commercial, y compris par vol nolisé et de croisière.

On procède à un dénombrement intégral des voyageurs aux aéroports et aux ports de mer grâce à cette carte qui répond aux besoins d'un certain nombre d'autres ministères, notamment en ce qui concerne le dédouanement. Les cartes, que remplissent les douaniers, renferment des renseignements sur la catégorie de voyageur et le pays de résidence.

On a modifié la présentation des statistiques de manière à y inclure les données mensuelles depuis deux ans. La partie concernant les données provinciales a été restructurée et donne maintenant les statistiques pour chacune des provinces séparément.

En raison de l'expansion de la publication qu'ont entraîné ces modifications, il a fallu condenser certains tableaux détaillés indiquant les voyageurs non résidents selon le pays. On peut obtenir ces renseignements en s'adressant à M. Mike Valiquette, Chef de la Section des voyages internationaux, Statistique Canada, Ottawa K1A 0Z8 (613-992-5507).

## Definition of Terms

International Traveller. — The term international traveller applies to all persons arriving in Canada who are cleared through Customs and Immigration points of entry. One person may cross into Canada several times on one trip away from home. The method of collection counts each crossing or visit made. The term international traveller is divided into three groups; non-resident traveller, resident traveller and other traveller. If all "same day" travellers are excluded from non-resident and resident categories, the numbers remaining approximate the international definition of "tourist".

Non-resident traveller. — An international traveller resident of a country other than Canada who passes through Canada Customs and is entering Canada for the following reasons:

- Business, commuting to work, seasonal or temporary employment.
- Pleasure, holiday, vacation, health and shopping.
- Visiting friends or relatives.
- Attending a convention, conference or seminar.
- Study, summer resident.
- Travelling in transit who do clear Canada Customs.

Resident Traveller. — An international traveller resident of Canada who has travelled outside of Canada for the same reasons as given above and who is returning to Canada through Canada Customs.

Other Travellers. — A group consisting of the following types of international travellers:

- Immigrants and former residents returning to establish residence.
- Military personnel and dependents.
- Diplomats and dependents.
- Persons engaged in the operation of a transport.

Land. — Automobile, bus and rail traffic as well as "other methods" entering by land and ferry.

Air. — Commercial and charter services and private plane.

Marine. — Commercial and cruise ship, passenger ferries and private or rented boat, and passengers on freighters.

Other Methods. — Pedestrians, bicycle, motorcycle, etc.

Direct to Canada. — Non-residents entering from countries other than the U.S.A. or Canadian residents returning from countries other than the U.S.A. directly to Canada. It should be noted that statistics are not provided on this basis for travellers leaving Canada.

Via the United States. — Non-residents entering from countries other than the U.S.A. or Canadian residents returning to Canada from countries other than the U.S.A. through or by way of the United States. The length of stay in the U.S. has no bearing on the classification; a person could be in transit through the U.S. or could have stayed several days. Examples: a non-resident entering direct to Canada who visits the United States during his trip would be counted twice; direct on his first entry and via the U.S. on his second entry. A returning resident vacationing in The Southern United States who travels to the Caribbean would be counted as returning via the United States.

Countries Other than the United States. — In the case of non-residents, this designation includes all countries other than Continental United States, Alaska and Hawaii. In the case of Canadian resident travellers, this designation includes Hawaii and all countries other than Continental United States and Alaska.

## Définitions des termes

Voyageur international. — Les voyageurs internationaux sont toutes les personnes qui arrivent au Canada par un point d'entrée des Douanes ou de l'Immigration. Au cours d'un même voyage, il se peut qu'une personne entre au Canada plusieurs fois. La méthode de collecte prend en compte chaque passage à la frontière ou chaque visite effectuée. Les voyageurs internationaux se divisent en trois groupes: voyageurs non résidents, voyageurs résidents et les autres voyageurs. Si tous les voyageurs "pour la journée" sont exclus des catégories "voyageurs non résidents" et "voyageurs résidents", les autres répondent à peu près à la définition internationale de "touriste".

Voyageur non résident. — Voyageur international, résident d'un pays autre que le Canada, qui passe par les Douanes canadiennes et qui entre au Canada pour une des raisons suivantes:

- Affaires, migration quotidienne, emploi saisonnier ou temporaire;
- Voyage d'agrément, congé, vacances, voyage pour motifs de santé ou emplettes.
- Visite à des amis ou des parents.
- Représentation à un congrès, une conférence ou un colloque.
- Études, résidence d'été.
- Voyage en transit en passant par les Douanes canadiennes.

Voyageur résident. — Voyageur international, résident du Canada, qui a voyagé à l'extérieur du Canada pour les mêmes raisons qu'ci-dessus et qui revient au pays en passant par les Douanes canadiennes.

Autres voyageurs. — Groupe constitué des genres suivants de voyageurs internationaux:

- Les immigrants et les anciens résidents revenant fixer leur demeure;
- Les militaires et les personnes à leur charge.
- Les diplomates et les personnes à leur charge.
- Les personnes travaillant dans les transports.

Par terre. — En automobile, en autocar, par chemin de fer de même que par les "autres moyens de transport" (arrivée par terre et par traversier).

Par air. — Services commerciaux, vols nolisés et avions particuliers.

Par eau. — Bateaux commerciaux et de croisière, traversiers pour voyageurs, bateaux particuliers ou loués et cargos.

Autres moyens. — À pied, à bicyclette, en motocyclette, etc.

Directement au Canada. — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant de pays autres que les États-Unis et arrivant directement au Canada. À remarquer qu'il n'y a pas de statistiques correspondantes pour les voyageurs qui sortent du Canada.

Via les États-Unis. — Non-résidents arrivant de pays autres que les États-Unis ou résidents du Canada revenant au Canada en provenance de pays autres que les États-Unis mais en passant par les États-Unis. La durée du séjour aux États-Unis n'a aucune importance: il peut s'agir d'un simple passage aux États-Unis ou d'un séjour de plusieurs jours. Exemples: un non-résident entrant directement au Canada et qui visite les États-Unis au cours de son voyage serait dénombré deux fois: comme entré directement lors de sa première entrée et comme entré via les États-Unis lors de la seconde. Un résident revenant au pays après avoir visité le sud des États-Unis et s'être rendu dans les Caraïbes serait dénombré comme un résident revenant via les États-Unis.

Pays autres que les États-Unis. — Pour les non-résidents, cette catégorie comprend tous les pays autres que les États-Unis (partie continentale), l'Alaska et Hawaii. Pour les voyageurs résidents du Canada, cette catégorie comprend Hawaii et tous les pays autres que les États-Unis (partie continentale) et l'Alaska.
